Survey of Fraternal Activities

In 2008, Knights of Columbus at all levels raised and donated more than \$150 million to charitable and benevolent causes. Members also performed 68.7 million hours of volunteer community service. Both of these are all-time highs for the Order. The information regarding the hours of service is gathered and collected using the form that was emailed to you. The information entered relates to any service provided (even if it was not part of an official KofC activity) during the year in the noted categories. Reasonable estimates are acceptable. It is important to use your best efforts to provide the data. If you have any questions please contact **Ray Bly**. **Please complete the information and return it to Ray Bly no later than January 26th.** It will be compiled and submitted to the national organization by the due date of January 31.

Dues --- Dues notices for 2009-2010 fraternal year were distributed. If you have not already done so, please remit your dues. We will carefully follow KofC guidelines regarding the collection, follow up, retention/suspension members with respect to dues and arrears.

Past Activity

Holy Innocents Shed Construction

Members under the leadership and direction of **Harry Oestreich** and **David Penley** (shed contractor par excellence) completed the 10' X 15' shed outside the church. Most of the work was done on Saturday, December 19th. We had a wonderful cadre of workers comprised of **Harry Oestreich, David Penley, Steve Diacetis, Henry and Lyn Meyerding, Jim Tannesen, John Evans, Amado Celix, Mick Hoar, Joe Vandehey, and Ray Bly**. Special Kudos to **David Penley** for all the work he did including roofing the building single-handedly. The purpose of the shed is to store kitchen equipment and supplies away from the kitchen area so we will have room to work constructing the kitchen.

Exterior Cross Marble Plaque Engraving --- **Bob Daharsh** took the marble to Seattle for engraving. It should be ready to mount soon.

Current Activity

Holy Innocents Kitchen Construction

With the Shed built and the kitchen equipment and supplies cleared from the area we can now begin work on the kitchen itself. The next phase will be to put in marlite and stud walls as well as frame the serving area and ceiling. Harry Oestreich will distribute a new timeline.
